Executive summary

Key metrics

- Scope: filtered view from uploaded dataset.

Confidence

Field mapping: High

AI insight

Business question

Which city generates the highest revenue?

Insight confidence: High

Why confidence is High

Metric and dimension columns resolve cleanly with full view coverage.

Business interpretation

- Spread between Mumbai and Chennai is approximately 35%.

Strategic recommendation

- Review city-level drivers before expanding spend.

AI conversation thread

Follow-up chain (summary)

1. Which city generates the highest revenue?
2. Why is Mumbai highest?
3. What evidence supports this conclusion?
4. Which columns were used for this analysis?
5. Show the calculations behind this answer.
